Presentation covers all types of rigging gear use, required annual inspections in-house, or third party, inspection criteria, shock loading, rigging angle effects, tag lines, hand signals and general safety practices. Upon completion of class and written exam, participants will receive a 'Basic Rigging Compliance' card.
1:15 pm - 2:30 pm	The Evolving Challenge of Volunteers at Ski Areas: Legal issues, Employment Law, and Risk Reduction - Cheyenne Dave Byrd, Director of Risk & Regulatory Affairs, National Ski Areas Association The ski industry has long used volunteers in a variety of contexts—patrol, mountain hosts, race events, and beyond. It's long overdue to educate the ski industry on the legal challenges of using volunteers, and this will touch on legal protections, employment law, and risk management, and workers comp. We have had a number of instances in the past few years where volunteers have created tremendous risk and exposure for resorts, and we will analyze recommendations to actually expand your use of volunteers, while maximizing your legal protections and minimizing risk. This is a great session for owner/operators, human resources, or patrol directors.
2:45 pm - 4:00 pm	Employee Housing Solutions - Brian Guyer, HRDC District IX, Inc. - Lamar/Gibbon In this session I will discuss the report, Big Sky Housing Assessment, released this spring, regarding the attitudes and challenges of living and working in the Big Sky community. I will talk about the tools available to address these issues such as down payment assistance, below-market rentals, changes in zoning, and housing development. I will also discuss the options and the actions local businesses are taking to provide affordable housing in our rapidly expanding community.
